COMPANY PROFILE

U.K. Steel Exports are highly experienced exporters of engineering materials to many countries throughout the world. The Company has since built up a substantial customer base in the Middle and Far East, Africa and the Caribbean.

Our staff have many years of experience in supplying steel, fabrications and non ferrous metals to the Construction, Mining, Oil & Gas, Engineering and allied industries.

CAPABILITY STATEMENT

We have always enjoyed a good relationship within the industry, allowing our customers to draw freely on our wide commercial and technical experience, thus making us an ideal supplier for all your company's requirements and our ability to supply stock materials.

As well as Steel Fabrication we supply Storage Tanks, in their pre-fabricated forms, for various applications and shipped to our Clients required destinations. We can supply material only to our customers own detailed specification, or from our initial design if required.

Establishing long-term relationships and satisfying the need of our customers are the main aims of our Company.

Our staff have the knowledge and experience to deal with any enquiry or query you may have and are fully committed to keeping our customers fully satisfied knowing that when an order is placed we can be relied upon to deliver exactly as requested, however large or small the order may be.

We are an ISO certified company as shown in our Catalogue, which is available in hard copy or to download at our website: www.uksteelexports.co.uk.
